

Crocheted Water Filter Sock

UPDATED 1/30/2024

Original pattern created by Martha Long, of Hancock County, Kentucky, updated for new filter sizing by Brenda Forshee of Louisville KY. Thank you, Brenda and Martha, for sharing your gifts with our mission! The hearts of Water Women around the world will be touched by these useful and beautiful little gifts! Blessings for that! Sister Lorraine

This “sock” is designed to prevent cracks if the filter is dropped. It also provides a wonderful personal touch that carries a special message of care to the receiving Water Woman. We suggest you say a prayer as you begin and/or conclude the sock—a prayer of blessing for the Water Woman and her ministry. Just imagine... this project will go from your hands into the hands of a mother who will cherish it for years to come.

Yarn: 4 Ply or doubled 2 ply, or cotton yarn. Please use attractive colors... the women love those!

Size G or H crochet hook: whichever gives you the correct gauge.

Gauge: Top to bottom should measure **5 1/2 inches long and 2 1/2 inches across. (NEW SIZE)**

Important! Check the ring after Row 2 to be sure it fits on the cap of a normal drink bottle. It should be 1 1/4 - 1 1/2 inches across.

Pattern: Pattern fits the Sawyer PointOne filter.

Note: Working from bottom up!

sl = Slip stitch hdc = half double crochet

Important: Crochet in tight stitches... you are making armor, not an afghan!

To begin: Chain 14 and join to create loop. This is the bottom of the sock.

Row 1: 21 HDC in loop (to cover loop) join with sl st. Do not turn.

Row 2-End: HDC in each HDC, beginning in 1st stitch of last row, catching all of top of each stitch to create a thicker result. Do not turn: simply continue forward in a spiral. Check length and width against photo on back, or on Mock Filter (see note on back.)

If you wish, crochet a simple decorating row to finish off your work: Chain 4, skip a stitch, sc into next stitch, repeat around to end. Finish off and weave in ends.

Tie: Make a chain of 75, and thread through the second to the top row to create a tie.

To produce a correct size, please SEE PHOTOS on the next page or the back of this copy. If you plan to be a regular contributor to this project, please contact us for a **Mock Filter: a 3D model that will help you ensure the filter socks are the correct size!**
