

Crochet for a Cause! Filter Socks to Protect Water Filters

Pattern Update: 9/17//2026

About This Project

Water By Women equips mothers around the world with the long-life filters they need to ensure that their children and neighbors are drinking safe water. The handmade **Filter Sock** adds a wonderful loving touch to a factory produced package sent by faraway strangers. It also helps to protect the filter from accidental breakage. You can imagine the joy that Water Women express when they learn that a stranger sent them a handcrafted gift. We ship out thousands of these every month around the world, including in the US!

Thank you for the joy your gift will soon bring to a Water Woman!

YOU WILL NEED
